Make Your Own

Fresh Milk

The New Improved Klim Mixer

..... milk that is **SAFE** for your children to drink in hot Summer weather

KLIM *will keep fresh and sweet*

—without refrigeration

The Perfect Summer Milk

YOU need milk that will keep perfectly without refrigeration in the hottest summer weather. Klim Powdered Whole Milk is that kind of milk. Pure milk from which only the water has been removed. Nothing added and nothing is lost. Mix Klim with either iced water or hot water and you obtain rich, creamy, delicious liquid milk—with the natural flavour of milk fresh from the cow.

So Klim will enable you to give your children sweet, fresh milk every time they want it this summer. Get one of the new Klim mixers and mix it as needed —a glass full or a quart at a moment's notice. There is none left over to go sour and therefore no waste. Many mothers now use this mixer at the table.

Every pound of Klim makes 4 quarts of fresh milk when reliquified. *Klim is sold in 3 convenient sizes 1-lb., 2½ lb. and 5-lb. vacuum sealed tins. There is no danger of contaminations.*

Whether Traveling or in Your Home .....
